I was advised today that Firefox will no longer support OS 10.6 - 8, as of 6-11-18. 02 (2013) In alphabetical order, a look at each Camino: Fast but Quite Outdated I still use Camino regularly, but only for one reason: I can open my HTML files of old Low End Mac pages in Camino, select all, copy, and then paste them into WordPress without the browser making a mess of things.. It may be the last Snow Leopard to prowl the snowy hills of Mac-land, but Mac OS X 10.

Camino has not been updated since 2013, and that version is based on Firefox 19 – two generations newer than Firefox for Leopard and one generation newer than TenFourFox for Intel.
